LUKOIL STARTS SUPPLIES TO PSA AUTHORISED SERVICE STATIONS IN RUSSIA

LUKOIL has signed an agreement with Peugeot Citroën Rus on lubricants delivery for servicing Peugeot, Citroën and DS cars. Particularly, the official dealer centers of PSA Group (Peugeot Citroën Automobiles) will be supplied with LUKOIL GENESIS SPECIAL and GENESIS ADVANCED engine oils.

"LUKOIL aims to develop its partnership relations with the key international automotive manufacturers. Such companies as PSA Group are determining modern and future-oriented requirements to lubricants. As of today, we are considering the PSA specifications of the first fill oils as we plan to participate in the Group's tenders on lubricants supplies in Russia and Europe" said Maxim Donde, General Director of LUKOIL Lubricants Company.

"As part of aftersales service development in Russia, PSA Group is interested in cooperation with local company which is able to supply multifunctional motor oils officially approved by the majority of car producers represented in the country's market. We are very happy to deal with such a reliable partner as LUKOIL" commented Evgeniy Boldyrev, aftersales service and spare parts director of PSA Group in Eurasia region.

For reference:

PSA Group produces three car brands, including Peugeot, Citroën and DS. The Group also provides various mobility services under Free2Move brand. PSA is a leading market player in the sphere of CO2 emission reduction with the average figure of 102.4 grams of CO2 per kilometer in 2016. The Group is one of the ground breakers in developing of self-driving and connected cars. PSA is also represented in the financial services sector with PSA Finance Bank as well as in the sphere of car components production with Faurecia.
