LUKOIL DEVELOPS PARTNERSHIP WITH KUZBASSRAZREZUGOL

In 2018, LUKOIL signed a new contract on lubricants supplies to Kuzbassrazrezugol. Russia's open-pit coal mine leader will acquire about 6 tons of LUKOIL lubricants during the year.

According to the new agreement the Company has expanded the range of products provided to the coal producer and will secure 100% of the industrial giant's quarry machinery needs in premium products of modern international specifications.

Kuzbassrazrezugol has been one of LUKOIL key clients since 2009. In 2012, LUKOIL for the first time implemented for the partner its service program, including maintenance works, at Krasnobrodsk and Taldinsk coal quarries. In addition, the company provided the coal giant with special mobile oil change trucks.
